Memo to File:

Re: AAEC (Proposed)  
Herb Henne, Operator  
Klondike Claims #1-35  
(The claims are in the  
name of Harold Ekker)

A letter was sent to Mr. Henne by Ron Daniels on November 1st, via certified mail, with a copy of the Mined Land Reclamation Act of 1975 and Division forms MR-1 and MR-2. This packet was returned to the Division marked "REFUSED".

On November 16, 1977, Brian Buck and myself visited Mr. Henne's operation in the Henry Mountains to personally deliver this packet to Mr. Henne and to inform him of the gravity of the situation. We met a Mr. John Bryan, one of Mr. Henne's hired hands, and were informed that Mr. Henne was in Las Vegas and would not return until the next evening. We were also told that Mr. Henne had intentions of pulling up his operation in the Henry Mountains and moving into the Green River area in the very near future.

We explained the situation to Mr. Bryan, giving him the packet in question and informing him that a response from Mr. Henne to the Division was of prime importance and should be immediate.

A Titan Motorhome leased to Mr. Henne was in camp bearing a Nevada license No. CNR 909.

An inspection of the access road and mine pad affirmed the observations of Ron Daniels and Mike Thompson on their inspection in October 1977.

JAMES W. SMITH, JR.  
RECLAMATION SOILS SPECIALIST
